

# Setup Reduction Online

Learn how to reduce setup times and eliminate waste on virtually any operation or machine.

Offered as part of the Online Lean Practitioner Certification

**Your instructor:**

*Sam Wagner* has led continuous improvement, quality, and manufacturing teams in the Aerospace, Construction, and Plastics industries for more than 20 years. He is a frequent presenter of best practices at both local and international conferences.

Application of the Setup Reduction process will identify many forms of waste. It is the elimination of these wastes that will allow a company to realize the benefits of implementing this approach.

**Tools and Topics Learned Include:**

- Increased equipment availability
- Increased operator efficiency
- Reduction in overtime
- Increased product mix flexibility
- Reduced inventories

Participants in this workshop will learn the tools necessary to conduct a setup reduction event. These tools will then be applied to a simulated event, where they will identify wastes, make improvements and track their progress. Various options to “sustain the gains” achieved during the process will also be covered.

**Who Should Attend:** Line leaders, supervisors, machine operators or any individuals who have the desire to gain knowledge of the process of reducing setup times on virtually any operation or machine.

**Wednesday, April 27, 2022 8:00 a.m. - 12:00 p.m.**

**Fee:** **MA members** \$295 per person **Non-MA members** \$395 per person  
**Receive a 10% discount if you register 14 days prior to the event**

*This workshop is online. Minimum requirements: Computer with speakers and/or headphones; dedicated screen for meeting time; Internet connection; ability to download Zoom.*

**Register:** Registration is required. Reserve on-line at [www.mfrall.com](http://www.mfrall.com), by 3:00 pm by April 25, 2022. You will be sent login credentials in advance of the workshop. **Your satisfaction is guaranteed.**

**Cancellation Policy:** **No refunds** for cancellations after 3:00 p.m., April 25, 2022, or for no-shows at workshop.
