

Visual Management & 5S Improvements Online

Offered as part of the Online Lean Practitioner Certification

Your instructor:

Charlie Garrett is an operations leader with over 25 years of broad-based manufacturing and consulting experience. He has expertise in all areas of manufacturing including: supply chain process improvement, value stream management, process design, program management, lean manufacturing, strategic planning, total productive maintenance, change management and training development and delivery in the Manufacturing, Window & Door, Medical Device, Chemical, Health Care, Automotive and Food & Beverage industries. Charlie has a degree in Operations Management from the University of St Thomas.

"A key takeaway from this workshop: changing how you think - identifying waste when walking through the facility or office"

Steve Rice, Dir. Quality
Hamon Deltak Inc.

Customers, employees and suppliers can tell a well-run plant and office without a narrated tour. The visual clues are everywhere. This is a straight-forward approach that impacts your customer and employee image, productivity and sales. The many facets of visual management and 5S can allow employees to show pride and organization in their area, give them performance feedback, provide incentive to hit their goals, illustrate what is expected of them and recognize a job well done. These techniques can help overcome language and reading barriers and boost learning retention too.

Tools and Topics Learned Include:

- Visual display boards
- Standard work boards
- Visual control boards
- Color-coding time savers
- Motivating teams for higher performance
- Pictorial procedures
- Visual performance measurements
- 5S organizing and housekeeping

Wednesday, November 30, 2022 8:00 a.m. – 12:00 p.m.

Fee: **MA members** \$295 per person **Non-MA members** \$395 per person
