

Creating Process Maps Online

Offered as part of the Lean Practitioner Certification

Your instructor:

Charlie Garrett is an operations leader with over 25 years of broad-based manufacturing and consulting experience. He has expertise in all areas of manufacturing including: supply chain process improvement, value stream management, process design, program management, lean manufacturing, strategic planning, total productive maintenance, change management and training development and delivery in the Manufacturing, Window & Door, Medical Device, Chemical, Health Care, Automotive and Food & Beverage industries. Charlie has a degree in Operations Management from the University of St Thomas.

Mapping demonstrates how Lean thinking can reduce process timelines and improve quality and delivery to schedule. In this session, participants will map out real processes and learn about pre and post mapping tools to add to their personal toolbox. Participants will leave with an entire cache of tools to assist through successful process improvement deployment and sustainment.

Tools and Topics Learned Include:

- Lean Principles for Mapping
- Prewrite for Successful Mapping Sessions
- Swim Lane Mapping, Value Stream, Spaghetti , Ideal State, and Future State Maps
- Post Mapping Tools
- The People Side of Change Management-3 Step Process

Wednesday, November 29, 2023 8:00 a.m. – 12:00 p.m.
